RE: Public Records Request

Dear Mr. McCarter:

On November 1, 2012, the Massachusetts Department of Public Utilities ("Department") responded to your public records request sent via e-mail on October 25, 2012, seeking records relating to the rules for insulating roofs under energy efficiency programs. On November 12, 2012, you sent a follow-up public records request seeking all communications regarding the MassSave insulation program between Constellation Services Group and any government body. After a reasonable search, the Department has determined that it has no records responsive to your request.

Please note that we are not aware of Constellation Services Group as the Lead Implementation Vendor, an Independent Installation Contractor, or a Home Performance Contractor for any of the Program Administrators operating the MassSave Program. Conservation Services Group is the Lead Implementation Vendor for NSTAR Electric and Gas Companies, and National Grid. The Department does not have any records regarding communications between Conservation Services Group and the Department regarding a MassSave insulation program.

We recommend you contact your gas and/or electric provider for more information regarding the implementation of their energy efficiency programs. Also, a list of Independent Installation Contractors and Home Performance Contractors for each gas and electric provider is available through the MassSave website at <http://www.masssave.com/residential/home-energy-assessments/about-home-energy-assessments/working-with-a-contractor>.

You may wish to contact the Department of Energy Resources, the Board of Building Regulations and Standards, and the Department of Public Safety for information on their rules and regulations regarding insulation and/or roof conditions.

If you have any questions or require further information, please contact me at 617-305-3634.

Sincerely,

A handwritten signature in cursive script that reads "Jonathan Goldberg".

Jonathan A. Goldberg
